Stroke Review Service

Facilitating long-term support
for people following stroke

Information for patients,
carers and relatives

Better healthcare together

CSH Surrey, providing NHS community nursing and therapy services in the homes, schools, clinics and hospitals in the heart of Surrey since 2006.

What is the Stroke Review Service?

This is a specialist service offering people who have experienced a stroke the opportunity to have a review six months after their discharge from hospital.

We know that people who have had strokes, as well as their carers, can benefit from a check to see if they need more information, help or treatment.

The reviews are an opportunity for us to assess how you are coping with life after a stroke, and whether you need further help and support.

Who can use the service?

This service is for patients over the age of 18, who have experienced a stroke and are registered with a GP in the East Elmbridge and mid Surrey areas.

Our team

- A stroke specialist nurse
- Administration staff

What happens at a review?

Our specialist nurse will:

- Assess your individual difficulties and needs
- Provide information, advice and support for you and your family and/or carers
- Check your blood pressure
- Refer you for further specialist rehabilitation if needed
- Talk and plan with other services as required.

Following the review, we will write to your GP with a summary of our discussions and recommendations, if any are made.

How can you get a review?

We will contact you to offer a stroke review around six months after your discharge from hospital.

Where will the review take place?

Our clinics are held at:

The Poplars

West Park, Horton Lane
Epsom
KT19 8PB

T: 01372 734 867

If you are unable to attend the clinic (for example, if you are housebound), please phone us and we will make an appointment to come and see you at home.

“The support has been invaluable and has helped me on the road to recovery.”

Patient
